Treatment of oral ulcer based on TCM syndrome differentiation
Ying Yao*, Li Liu Shaanxi University of Chinese Medicine,
Xianyang 712000, Shaanxi Province, China Abstract: Oral ulcer is a kind of ulcerative injury that occurs in the oral mucosa and is very common in clinic. In severe case, it can affect the quality of life of the patients.

Treatment of oral ulcer based on TCM syndrome differentiation

The term differentiation means comprehensive analysis. While the term syndrome refers to signs and symptoms. So differentiation of syndromes implies that the patient's symptoms and signs collected by the diagnostic methods in Chinese medicine are analyzed and summarized to identify the etiology, nature, and location of a disease.
