How to Make Brandy - Learn to Moonshine

Our German-style fruit brandy comes from apples, pears, and grapes that go through skin-on-fermentation. This just means that we use the whole fruit, mash it into a sauce, ferment it, distill it, and add water to proof it down. We pride ourselves in the fact that we do not add any coloring, flavoring, or concentrates to make our brandy lecker.

German-Style Fruit Brandy — The Dampfwerk Distillery

Brandy is created by distilling fruit wine. After the fruit has been fermented into a wine, the wine is then distilled to produce a strong, clear spirit with the essence of fruit it was made from. Traditionally Brandy was distilled in pot stills; today column stills are often used, as they can be used for continuous distillation.

How to Make Apple Brandy - Clawhammer Supply

All spirits distilled from fermented fruit other than grapes is a fruit brandy. More specifically, most fruit brandy derives from distilled fruit wine. Berries, on the other hand, are a special case because they do not contain enough sugar to make a wine with enough alcohol to be distilled into a proper fruit brandy.
