Finance is a term for matters regarding the management, creation, and study of money and investments. Specifically, it deals with the questions of how an individual, company or government acquires money - called capital in the context of a business - and how they spend or invest that money. Finance is then often divided into the following broad categories: personal finance, corporate ...

The global financial crisis, brewing for a while, really started to show its effects in the middle of 2007 and into 2008. Around the world stock markets have fallen, large financial institutions have collapsed or been bought out, and governments in even the wealthiest nations have had to come up with rescue packages to bail out their financial systems.
