[DOC] Harley Sportster Carb Fitting Guide

A Harley carb is only held to the manifold with a slip fit rubber manifold boot. Gently rock or twist the carb back and forth as you pull it away from the engine. Remove the cables that you tagged and remove any vacuum hoses. If your model has multiple vacuum hoses it would be a good idea to label these as well.

Harley Davidson Carburetor Performance Tuning

Modified Harley or Harley based engines tend to fall into one of three categories. Decide where your ride falls and choose which Mikuni carb best fits your application. 1) Modified stock — This engine typically has stock cylinder heads, a high flow air cleaner, high flow mufflers, possibly a bolt-in cam.
